

CS261 Group Software Development Project

Assessment of Team Member Contributions

Student Name:.....Yanlin Yu.....

Group Number:.....Group 24.....

Student ID:.....2140365.....

Please rate every member of your team for their contribution to the project (including yourself) during the period from the start of the project up to and including the authoring of the final report. Give brief comments to justify your rating.

Name	Rating	Comments
Jordan Beale	0	Attend all meetings work on AWS database and APIs,
Musab Guma'A	0	Attend all meetings, focus on the front end and connect AWS functions together
Krishi Mistry	1	Attend all meetings, focus on model part with Jorban, do model part in final report, everything goes well.

Yanlin Yu	0	Attend all meetings; built up AWS database; help with model metrics and AWS things; help some front end stuff; editing more final report; do the video things
-----------	---	---

Use the following rating scale, where the sum of the ratings of all team members should be exactly 0.

Fractional ratings are permitted provided that they sum to 0.

- +2 Outstanding contribution to the team.
- +1 Significantly better than average contribution: the team member has done much more than could reasonably be expected as well as working effectively and cooperatively within the team.
- 0 Average contribution: use this when the team member has worked effectively and cooperatively within the team.
- 1 The team member has done significantly less than could reasonably be expected.
- 2 Very weak contribution: much of what could reasonably be expected of this team member was not delivered

Joban Khuman	1	Do the machine model part with Krish, build the model and the model goes well
Denys Nunez	-2	Never show in part. Did nothing but seen in gyms

Please note that these ratings must add up to zero.
